MagicWorkbooks®

Hotel Quality Manager

Evaluating Quality by Guest response in Hotels and Restaurants

This is a **Magic**Workbook: a controlling tool in the form of a Microsoft Excel file.

No macros, no write protection. All formulas used are visible.

All formats used are standard Excel which transform into your country's Excel formats.

You can import your DATA from any source that supports MS Excel.

You can also add your own worksheets as you see fit.

System requirements

Platform: Windows 98 or later operating system
Microsoft Excel Version: 2007 or later
(You need a xls format (excel 2003) – send us a short information after you placed the order – support@magicworkbooks.com - we'll send you the ordered xls MagicWorkbook by email)

Product Survey

Hotel Quality Manager is the fast and easy way to evaluate guest checks.

You want to know

- in which areas your guests are most satisfied?
- which services really need your attention?
- what your customers are also interested in?

Then Hotel Quality Manager is the tool for you!

You can:

- evaluate up to 7 service outlets / areas
- with up to 16 different criteria
- A simple grading scale (Good - ok - bad) gives you clear-cut evaluations.
- You can differentiate by month of customer appraisal which allows you to see developments and changes.
- And of course you get all evaluations with easy-to-analyse graphics.

Hotel Quality Manager
DATA INPUT

Input your data only in the yellow cells.

Do not overwrite formula cells.

Do not delete, add or drag&drop cells.

This may destroy the functionality of this tool!

You can HIDE rows or columns if you want to.

Name:

Year:

Areas of Evaluation

Now input the service areas / outlet you want to evaluate i.e. those that you use on your guest response cards

| | |
|--------|-----------|
| Area A | Breakfast |
| Area B | Lunch |
| Area C | Dinner |
| Area D | Bar |
| Area E | Lounge |
| Area F | |
| Area G | Rooms |
| Area Z | General |

End of general DATA INPUT.

Continue with evaluation areas, sheet "DATA-A" to "DATA-Z"

You can change every evaluation criterion (yellow cells, rows 5 and 6 in "Data-A" to "Data-Z").
Every change will automatically be transferred to the evaluations.

For every guest response, input the month of origin in Column C in "Data-A".

Input the month as a number from 1- 12 (Jan = 1; Feb = 2 and so on).

This data entry is transferred to all other areas, so you don't have to input it again.

Next, enter the guest evaluation for every criterion by inputting "1" in the respective yellow cell.

We have input a few data for your orientation and to enable you to see how the evaluations work. These demo data should be overwritten with your own data.

In what way do **MagicWorkbooks**[®] differ from normal Excel workbooks?

MagicWorkbooks are easier to use:

- Easy-to-handle data input with demo data for orientation
- All data to be entered only once
- No programming knowledge required
- No detailed knowledge of Microsoft Excel required
- No work on spreadsheets or charts required
- No scrolling for sheets thanks to a Hyperlink-table of contents

MagicWorkbooks are faster:

- A monthly report with 20 spreadsheets and 20 charts in 20 minutes?
- Calculate year-end liquid reserves with changes in revenue prediction for every month in half an hour?
- Compute balance sheets for the next five years in one hour?
- Decision on a \$ 50 million sale-and-lease-back operation: Prepare all relevant data in one hour?
- Determine capital re-investment requirements (fixed assets) for the next year in 10 minutes?
- Prepare a comprehensive company presentation for your bank in one hour?

With **MagicWorkbooks** all that is „business as usual“!

This was just a brief survey ...
