

WILLKOMMEN! BIENVENUE! WELCOME!

to the world of

MagicWorkbooks®

ProjectManager

This is a **Magic**Workbook: a controlling tool in the form of a Microsoft Excel file.

No macros, no write protection. All formulas used are visible.

All formats used are standard Excel which transform into your country's Excel formats.

You can import your DATA from any source that supports MS Excel.

You can also add your own worksheets as you see fit.

© 2015 K! Business Solutions GmbH

www.MagicWorkbooks.com

System requirements

Platform: Windows 98 or later operating system
Microsoft Excel Version: 20010 or later

Product Survey

- Project Manager is a tool for project-planning, project-in-action and project controlling.
- Project Manager is designed for a project with up to 15 separate units and up to 15 steps per unit.
- Project Manager calculates and operates on the basis of project workload, project time-line and project expenses (incl. Investments).
- Automatically generated status reports and graphs are available at any point during the course of the project.
- Different scenarios are available at the push of a button.
- Project Manager is presentation-friendly: every sheet and graph has been formatted for effective use in a presentation.

DEMO DATA

This sheet shows demo data for your orientation in data input.

Of course you can also change the demo data e.g. to create different scenarios for your project.

To activate the demo data you click the button "DEMO DATA" in the green field on top of the DATA sheet.

In what way do **MagicWorkbooks**[®] differ from normal Excel workbooks?

MagicWorkbooks are easier to use:

- Easy-to-handle data input with demo data for orientation
- All data to be entered only once
- No programming knowledge required
- No detailed knowledge of Microsoft Excel required
- No work on spreadsheets or charts required
- No scrolling for sheets thanks to a Hyperlink-table of contents

MagicWorkbooks are faster:

- A monthly report with 20 spreadsheets and 20 charts in 20 minutes?
- Calculate year-end liquid reserves with changes in revenue prediction for every month in half an hour?
- Compute balance sheets for the next five years in one hour?
- Decision on a \$ 50 million sale-and-lease-back operation: Prepare all relevant data in one hour?
- Determine capital re-investment requirements (fixed assets) for the next year in 10 minutes?
- Prepare a comprehensive company presentation for your bank in one hour?

With **MagicWorkbooks** all that is „business as usual“!

This was just a brief survey ...

if you have further questions regarding this workbook, email us!
